TAILORED TO YOUR BUSINESS NEEDS

At S SIGNATURE we act as an intermediary designed to reinforce your corporate culture, retain employees, and pamper your visitors, as well as working with you to assist you in outsourcing your travel and business needs.

Our areas of specialization are employee benefits, customer loyalty, luxury services, and hospitality services.

Our corporate packages are bespoke, based on meeting your business's specific needs and objectives, and are designed to work hand-in-hand with your management style and business model, but are in no way meant to replace them.

EMPLOYEE BENEFITS

A survey found that 15 to 20% of working time is allocated to resolving personal matters and that 83% of employees expect more benefits at their place of employment.

You know that the happier your employees are, the more productive they become. By having a Lifestyle Manager catering to their needs, you will help them release the tension of their day-to-day tasks, and give them the time they need to find the right work-life balance; both of which are paramount to their happiness.

Depending on their needs or your corporate culture, you can offer them the Local, International, or Signature membership as compensation, incentive, or bonus.
